

Who Is Vual?

Posted on June 16, 2025 by Rhyan Hyroc

The Veiled Duke of Secret Speech and Clandestine Affection

In the shadowed court of Goetic spirits, where many roar with force or dazzle with infernal splendor, there stands one who whispers—and the whole world listens. His name is **Vual**, and he is a master of the invisible thread between intention and articulation, between longing and its delicate release. He is not a demon of noise, but of necessity; not a being of demand, but of timing, presence, and resonance.

Vual—also written as Uvall or Voval—is listed as the forty-seventh spirit in the *Ars Goetia*. He bears the title of **Duke**, commanding thirty-seven legions of spirits, yet his true dominion is not merely military. It is *intimate*. Vual governs what is *spoken only once*, what is *never repeated*, and what is *felt in the heart but left to bloom in silence*.

He appears, in visions, as a mighty camel-rider cloaked in moonlight, his presence dignified but strangely incorporeal. His speech is low and rhythmic, often dreamlike or inaudible to the external ear. To some, he appears hooded or masked, with veils that ripple like the surface of black water. To others, he enters dreams through scent, gesture, or the rustling of silk rather than words.

This is Vual's essence: **presence without pressure, revelation without exposure**.

Ancestry in the Hidden Orders

Vual's spiritual lineage traces not to rebellion or war, but to **intercession**. Among the ancient watchers, he was a messenger between rival powers. Among lovers, he was the spirit who kept union alive beneath the gaze of opposition. Among spies, he was the voice that taught **how to speak truth without speaking plainly**.

Unlike more direct spirits, Vual's allegiance lies with those navigating complexity: those reconciling after betrayal, those carrying dual identities, those needing to

express without danger. He does not force communication. He permits it—quietly, subtly, at just the right moment.

The Subtle Current of Vual

There is a difference between manipulation and influence. Vual teaches this difference.

When attuned to Vual, one becomes **linguistically precise**, but not wordy; **energetically seductive**, but not aggressive; **emotionally open**, yet veiled. His initiates begin to wield not just language, but timing, tone, and presence as tools of great spiritual force.

Some manifestations of his current include:

- **Eyes that provoke confession without asking questions**
- **Dreams that guide others to reveal what they hide**
- **Erotic connection formed in silence**
- **Diplomatic success where others fail through charisma without explanation**
- **Protection of secret unions, forbidden alliances, or controversial intentions**

His influence is not designed for blunt-force magic. It is for **those ready to craft outcomes from the inside-out**—through the rearrangement of energetic rapport.

Symbols, Offerings, and Scent

Vual's **sigil**, etched in lunar silver or dark ink, becomes a conduit of veiled power. It is recommended to gaze upon his sigil during attunement, but also to keep it wrapped or sealed when not in use. **Concealment honors him.**

Offerings to Vual are best made at night and should include:

- **Dried black or deep red roses**
- **Oil of blue lotus or myrrh**
- **Silver coins or veiled mirrors**
- **Words written but not spoken—letters sealed and burned**
- **A vow of discretion kept faithfully**

He responds favorably to environments of quiet beauty: candlelight, flowing dark fabric, soft incense, and ritual performed without an audience.

Why He Is Being Called Now

In our modern world of constant noise and exposure, **the need for sacred discretion has returned.** People are losing their ability to protect intimacy, negotiate effectively, or carry secrets with integrity. The soul that whispers has been buried beneath the ego that shouts.

Vual offers his current to those who want to *undo this imbalance*. He calls to those who are ready to become:

- **The confidant no one suspects**

- **The lover who never needs to chase**
- **The reconciler who never takes sides**
- **The speaker whose silence commands more than speeches**

If you have found yourself desiring to influence without conflict...

If you long to rekindle something lost without demanding closure...

If you've ever wished to be understood before speaking a single word...

Vual has already begun his approach.

His Lessons in the Greater Path

Vual does not rush. He teaches patience with outcomes. His magic is built on *energetic architecture*, not fireworks. When attuned to his presence, initiates begin to receive inner signals of when to speak, what not to say, and how to guide without coercion.

His lessons include:

1. **Discreet Persuasion** - The art of subtle energetic prompting
2. **Erotic Silence** - Building deep longing without explicit expression
3. **Reconciling Enemies** - Without revealing one's role
4. **Mask Work** - Projecting one persona while guarding the true self
5. **Dream Disclosure** - Allowing others to confess without prompting

6. **Sealed Words** – Using written rituals to speak the unspeakable
 7. **Veil Maintenance** – Knowing when to reveal and when to remain hidden
 8. **Emotional Cloaking** – Navigating betrayal, heartbreak, or risk without collapse
 9. **Protecting the Forbidden** – Working within taboo relationships
 10. **Psychic Listening** – Hearing what isn't said and responding accordingly
-

Presence Without Witness

Above all, Vual teaches the paradox of true influence:

The more veiled the magician, the more potent the spell.

In working with Vual, one becomes the kind of presence that stays behind the curtain, **yet guides the entire play**. The words you speak may seem simple. But behind them? A current of directed will.

This first lesson is not merely knowledge—it is a recognition.

If you feel your heartbeat slow as you read these words...

If your thoughts begin to form without form...

If your name feels like a secret...

Then Vual is already within reach.

Prepare yourself. In the next lesson, you will meet the **archetypes that Vual activates within you**, and begin the energetic alignment that will whisper your way into sovereignty.
