

Agares - 21-Day Remote Spirit Initiation Structure

Posted on September 5, 2025 by Rhyon Hyroc

Enter the Dominion of Motion: Agares

Duke Agares is the Lord of Movement, the Sovereign of Restored Dominion, and the Commander of Linguistic Power. His current governs acceleration, memory, authority over territory, and the commanding use of speech.

To approach Agares is to step into motion. Where there was hesitation, he ignites momentum. Where there was loss, he restores dominion. Where words falter, he sharpens language into a weapon of command.

The *Attunement + Grimoire of Agares* is a three-part initiation into his dominion—preparation, disciplined alignment, and tactical tools of sovereignty. This course does not merely teach; it deploys.

Why Walk with Agares?

Because life requires speed, precision, and reclaimed ground. Agares governs the forces that move you forward when delay or exile has trapped you. His initiates often experience:

- **Momentum and Acceleration** – The breaking of hesitation and sudden propulsion forward. For instance, initiates report stalled projects suddenly gaining traction, or opportunities appearing within days of ritual discipline.
- **Command of Languages** – Agares sharpens the tongue. Many experience rapid improvement in language learning or unexpected ease in recalling forgotten words, making him invaluable for scholars, negotiators, and speakers.
- **Restoration of Forgotten Skills** – Memory does not vanish; it lies dormant. Agares awakens talents buried by time, whether artistic, linguistic, or strategic.
- **Territorial Dominion** – His current governs land, property, and sovereignty of space. Those seeking to reclaim lost homes, stabilize living conditions, or assert energetic command over a workplace often call upon him.
- **Strategic Timing** – Agares accelerates decisions and aligns motion with the right moment. Hesitation dissolves; clarity sharpens.
- **Verbal Authority** – His presence strengthens voice and speech, making words carry power. Many initiates notice others begin listening more intently to them.
- **Exile Reversed** – Agares restores what was taken, whether spiritual, physical, or social. Stories abound of initiates returning to careers, relationships, or communities they once thought closed to them.

Agares does not work slowly. He brings swiftness, clarity, and the power to stand again in sovereignty.

Inside the Course: What You Will Experience

Grimoire: Introduction and Preparation

This first module arms you with clarity, tools, and alignment. You do not approach Agares passively; you arrive prepared for motion.

You will:

- Learn **who Agares is**: Duke of the Eastern Zone, an infernal commander ranked among the Goetic hierarchy, known for governing motion, speech, and restored dominion.
- Explore his **archetype** as the Lord of Movement and Linguistic Power. This includes his symbolic role as the spirit who pushes against stagnation and restores lost authority.
- Study his **powers in detail**: acceleration, memory, restoration, sovereignty over space, verbal command, linguistic mastery, and reversal of exile.
- Construct an **optional altar** designed to anchor his current. Even a simple setup with his sigil and a candle can focus his presence into daily life.
- Learn the **Altar Prayer of Agares**, a spoken formula that opens his gate of strategic ignition and signals readiness for his current.
- Craft the **Sacred Oil of Agares** (optional), used to anoint yourself before rituals of speech, negotiation, or reclamation of ground.

Agares – 21-Day Remote Spirit Initiation Structure

- Review **correspondences**: his zodiac sign, regency dates, numerology, metal, animal, candle color, and incense. For example, lighting his designated candle during negotiations or career pursuits can amplify influence and success.
- Study **user cases**, such as practitioners regaining lost property, accelerating stalled careers, or suddenly excelling in language-based professions after invoking Agares.
- Conclude with a **guided meditation**, leading you into Agares's astral domain where you are marked as an initiate under the banner of speed, speech, and sovereignty.

This module ensures you do not stumble into his current unprepared—you arrive standing, focused, and ready for deployment.

Attunement: The Initiation

This is the engine—the **21-day cycle** that installs Agares's current into your body, mind, and voice.

You will:

- Perform daily ritual with sigil focus, building consistency that binds your energy to his dominion.
- Develop momentum through discipline: each day compounds the last, creating acceleration where you once felt stagnant.
- Be fortified by **seven remote rituals** conducted by the Terra Incognita masters. These transmissions act as pillars, stabilizing and intensifying your attunement so the current of motion and sovereignty flows steadily through you.

- Experience **transformation in real time**: projects advancing, sudden clarity of speech, forgotten knowledge returning, and decisive energy rising where there was once hesitation.
- Learn to read **initiation signs**: sharper mental speed, improved recall, stronger command in conversations, or even physical restlessness signaling the current's ignition.
- Accept the rigor: one missed day resets the cycle. This mirrors Agares's truth—momentum requires continuity.

By the end of the 21 days, your body sharpens, your mind clears, and your voice commands. You emerge not in devotion, but in deployment.

Rituals & Tools: Keys of Motion and Command

The final module equips you with **20 petition templates**, each one designed as a tactical invocation of Agares's powers.

These are not abstract—they are direct, practical, and applied to daily life.

Examples include:

- **Momentum Activation** – When projects stall, invoking this petition reignites progress. One practitioner used it after months of career stagnation and reported three job offers in the same week.
- **Command of Languages** – Accelerates fluency in new languages or restores forgotten linguistic ability. Ideal for students, writers, or professionals in diplomacy.
- **Restoration of Lost Skills and Knowledge** – For those who once played an

Agares – 21-Day Remote Spirit Initiation Structure

instrument, practiced a craft, or studied a field but fell away—Agares reopens the memory, allowing talent to return.

- **Territorial Command** – Used to assert sovereignty over living spaces, workplaces, or even contested land. Some report hostile neighbors calming after this petition.
- **Acceleration of Decisions and Timing** – Clears hesitation, ensuring you act at the right moment with confidence.
- **Mental Speed and Strategic Focus** – Sharpens mental clarity for problem-solving, negotiations, or tactical planning.
- **Verbal Banishment of Enemies** – Speech becomes displacement. Those who oppose you lose power in your presence.
- **Grounding Scattered Intent** – Focuses chaotic energy into one coherent, strategic direction.
- **Energetic Authority Over Space** – Installs your will into environments so that spaces feel aligned to your energy.
- **Reversal of Exile** – Calls back opportunities, status, or communities from which you were excluded. Initiates often report unexpected reconciliations or reinstatements in social or professional spheres.
- **Creating and Working with Servitors of Agares** – Constructs energetic entities under his dominion to carry tasks of speech, protection, or sovereignty on your behalf.

These petitions are **keys of movement and command**—fast-acting invocations forged for those who must act without delay.

The Commanders of Agares

Behind Agares stands a structured legion, his commanders each governing precise aspects of motion, sovereignty, and linguistic power.

- **Vaeroth: Keeper of Shifting Tongues** – Governs language, translation, and persuasion. Useful in negotiations or when learning new modes of speech.
- **Molgrin: Warden of Crumbling Order** – Oversees collapse, guiding initiates through the fall of old structures and clearing the way for sovereignty to be restored.
- **Therzun: Binder of Ruined Thrones** – Deals with fallen authority and teaches how to reclaim or reshape lost positions of power.
- **Ovlaketh: Herald of Desert Winds** – Commands currents of swiftness, shifting environments and circumstances rapidly.
- **Kirevan: Scribe of Lost Languages** – Restores forgotten linguistic codes, unlocking ancestral or occult languages in dreams and visions.
- **Bravokh: Architect of Falling Realms** – Guides initiates through transitions when empires or systems collapse, showing how to build sovereignty within ruins.

To engage with Agares's commanders is to step into the **military structure of his dominion**. Each commander channels his essence into a focused current, extending the Duke's reach into precise domains of action.

Step Into Motion

Agares does not linger in stagnation. He commands speed, restoration, and authority. To walk with him is to stand again in sovereignty, sharpened in speech, empowered in presence, and unstoppable in momentum.
