Attunement - The Path of Loyal Truth

The second module is the heart of initiation: a **21-day cycle of alignment** with Orobas's current.

You will:

- **Perform daily ritual practice** of sigil-gazing and recitation, anchoring loyalty and truth into your body and energy field.
- **Live the discipline**—the ritual must be performed consistently. If a day is missed, the cycle resets. This enforces Orobas's lesson: truth requires commitment.
- Be supported by **seven remote rituals** performed by the Terra Incognita Coven, which fortify the bond between your field and Orobas's current.

- **Journey through the Celestial Horse Gate meditation**, a visionary practice that carries you into Orobas's astral current. Many initiates report visions of horses of light, vast open plains, or sudden flashes of truth about their lives.
- **Recognize signs of attunement**: truths surfacing suddenly, dreams filled with symbolic counsel, or unexpected acts of loyalty from others around you.
- **Undergo energetic realignment**, feeling yourself become more centered, focused, and shielded from deception.

By day 21, the initiate carries Orobas's current within them: an unshakable sense of loyalty, sharpened discernment, and the clarity to see through illusions.
