### Attunement — The Royal Mirror of Becoming

The second module is the furnace of metamorphosis—the **21-day attunement cycle** where [Orias](#)'s current flows directly through you.

You will:

- Begin with the **Serpent Star Gate meditation**, a ritual visualization that opens your awareness to his astral domain.
- Engage in **daily sigil gazing and mirrorwork**, learning to see yourself not as fixed but as malleable—an identity you can refine, shed, or amplify.
- Build your discipline through 21 days of consistent practice. Many initiates report that during the second week, they suddenly sense shifts in how others perceive them—subtle compliments, unexpected invitations, or new professional opportunities.

## Attunement with Demon Orias Duke of Stellar Timing, Prestige & Inner Shape-Shifting

- Be strengthened by **seven remote rituals** performed by the Terra Incognita masters, designed to stabilize your field and expand [Orias](#)'s current in you.
- Learn to read **signs of integration**: vivid dreams of serpents or stars, moments of uncanny timing, or sudden clarity about what roles or identities you must release.
- Explore the **emotional and practical shifts** that unfold—some initiates report old insecurities dissolving, while others find themselves adopting new mannerisms or speech that make them naturally more commanding.
- Accept the rigor: one missed day resets the cycle. This is [Orias](#)'s lesson—ascendancy is not random, but earned through consistency and refinement.

By the close of the cycle, your aura reflects [Orias](#)'s mirror: dignified, magnetic, sovereign.
