### **Enter the Serpent's Gaze: Botis**

Botis is the dual-faced serpent, the Judge who speaks in silence, and the mirror that reveals what hides beneath masks. His current is one of truth, reconciliation, and serpent sight — a clarity that cuts through deception and a presence that holds sovereignty over speech, judgment, and hidden knowledge.

The *Attunement + Grimoire of Botis* is a complete initiation into his current. This course prepares the seeker with clarity, tests them with discipline, and equips them with tools of speech, sight, and psychic defense — to face deception without fear and walk with judgment that does not falter.

## Why Walk with Botis?

Because lies are everywhere. Because manipulation moves unseen. Because the ability to perceive truth is sovereignty itself. Botis offers the fire-eyed sight of the serpent — clarity sharpened into weapon and shield.

Those who align with Botis gain:

- **Lie Detection** – The ability to sense deception in words, tone, or body language. For example, initiates often report sudden “flashes” of knowing when someone is lying, even if the words sound convincing.
- **Revealing the Hidden Face** – Seeing beyond appearances to the concealed motives of others — a skill invaluable in relationships, negotiations, or conflicts.
- **Strategic Speech** – Botis empowers words as weapons and shields, teaching when to speak, when to remain silent, and how to turn dialogue into decisive strategy.
- **Conflict Mediation** – The serpent does not strike in chaos — he brings peace through precise words and presence. Many find themselves suddenly able to resolve disputes that once felt impossible.
- **Psychic Shielding** – Botis teaches defense against manipulation, both energetic and verbal. His initiates often describe feeling “untouchable” in rooms once filled with tension.
- **Dream Revelation** – His current opens dreamscapes where truth appears symbolically: hidden enemies revealed, suppressed memories resurfacing, or paths forward illuminated.
- **The Sovereignty of Silence** – Not every battle is fought with words. Botis

teaches the power of silence as command — the ability to hold presence so strongly that others reveal themselves.

With Botis, **clarity becomes armor, and speech becomes a blade.**

## Inside the Course: What You Will Experience

### Grimoire - The Armored Path of Knowing

Before the gaze of the serpent, the seeker must prepare. This module grounds the initiate in clarity, serpent archetype, and practical tools.

You will:

- **Encounter Botis's mythic role:** the two-faced serpent, truth-bringer, judge of silence, and reconciler of opposites. From medieval demonology to modern testimony, his current has always carried the weight of revelation.
- **Explore his archetype:** the Serpent Judge — a force of duality, seeing both sides, reconciling contradictions, and piercing deception.
- **Study his powers:** lie detection, mirror-scrying, speech empowerment, psychic shielding, conflict mediation, and dream revelation.
- **Build an optional altar** — “The Scaled Mirror” — using reflective surfaces, serpent imagery, or candles. Practitioners report that even simple altars magnify his presence in divination or truth-seeking work.
- **Craft the Sacred Oil of Serpenthra Botis** — an optional oil blend used for anointing before rituals of speech, sight, or psychic defense.

- **Learn his correspondences:** planetary influences, zodiac regency, sigil, element, gemstone, animal, and legions. These symbolic keys allow you to time petitions and invocations for maximum impact.
- **Understand symbiosis and adversity with other demons,** ensuring you know when Botis's current harmonizes and when it disrupts. For example, his truth-bearing current pairs well with spirits of judgment, but clashes with those whose currents thrive in illusion.
- **Review user cases:** initiates who sensed betrayal before it happened, uncovered sabotage in workplace politics, or found clarity in legal disputes through Botis's presence.
- **Receive the summoning ritual** of Botis — a precise method of calling the Serpent Judge into presence.
- **Engage in guided meditation** — preparing the mind as blade, the heart as mirror, so that serpent sight may open without distortion.

By the end of this module, you will be armored in clarity — ready to meet deception with steady eyes.

## **Attunement - The Ignition of Sovereign Fire**

This is the **21-day infernal attunement cycle** — the heart of alignment with Botis's serpent current.

You will:

- Perform daily ritual before his sigil, holding gaze and voice steady. Over time, this practice sharpens awareness, intensifies inner stillness, and expands perception.

- Build a rhythm of **discipline and presence**, learning to hold attention without wavering — the serpent gaze is forged in steadiness.
- Be supported by **seven remote rituals** conducted by Terra Incognita masters. These transmissions stabilize your subtle body, preventing overwhelm as serpent sight awakens.
- Learn the **posture and gaze techniques** that open the mirror of perception — ways of focusing that strengthen psychic sensitivity while protecting against distortion.
- Recognize **attunement signs**: heightened sensitivity to dishonesty, dreams that reveal hidden truths, or sudden insights about people and situations. Many initiates describe “hearing between words” or sensing when silence carries more than speech.
- Experience **emotional confrontation**: the surfacing of uncomfortable truths about yourself or others. This is not chaos — it is serpent wisdom, showing what is real.
- Accept the rigor: miss one day, and the cycle resets. This discipline ensures you embody judgment as sovereignty, not as impulse.

By day 21, the initiate does not merely *see* differently — they *are seen* differently. Presence shifts. Speech carries weight. Eyes hold a clarity that others cannot ignore.

## Rituals & Tools of Strategic Dominion

The final module unlocks **20 petition templates** — practical invocations for real-world guidance. These are not general prayers but precise tools, each crafted to channel Botis’s current into specific life situations.

Examples include:

- **The Tongue That Knows** – Detecting lies in conversations or contracts. Initiates often report a “gut certainty” when falsehoods are spoken.
- **The Hidden Face Revealed** – Unmasking enemies or saboteurs in work or social life. Used when betrayal is suspected but not proven.
- **The Sword Between Sentences** – Empowering speech in negotiations or confrontations so words cut precisely without excess.
- **The Knife of Peace** – Mediating conflict with authority, turning disputes into resolution without violence.
- **The Watcher in the Glass** – Using mirrors or reflective surfaces to scry hidden knowledge. Many describe seeing fleeting images or impressions in reflections.
- **The Filter That Sees** – Shielding against manipulative speech or psychic suggestion, ensuring clarity in communication.
- **When the Room Whispers** – Heightening awareness in social situations to detect unspoken hostility, gossip, or hidden agendas.
- **Serpents in the Garden of Sleep** – Receiving dream-based revelations, especially about hidden dangers or concealed truths.
- **The Weight of No Words** – Invoking silence as command — used when presence alone must speak louder than voice.
- **The Blade That Does Not Shake** – Calling upon judgmental clarity in critical

decisions, such as legal matters, contracts, or life choices.

- **Crafting and Commanding Servitors of Botis** - Building serpent-like servitors that specialize in detection, protection, or truth-bearing.

Each petition is designed for **practical integration**. For example, one initiate used *The Sword Between Sentences* before a business negotiation, reporting that the right words came naturally and shifted the contract in their favor. Another used *The Hidden Face Revealed* during a personal conflict, leading to the sudden exposure of a hidden betrayal.

This arsenal is strategic, precise, and ongoing — tools you can wield whenever clarity is needed.

## The Commanders of Demon Botis

Beneath Botis's dominion stand his commanders — serpent emissaries who embody specialized aspects of truth, guidance, and vision.

- **Kezhul — The Tongue-Breaker:** Breaks falsehoods and exposes lies by force of speech. His current is fierce, used when deception must be shattered.
- **Ossith — The Bridge-Setter:** Creates pathways of reconciliation between divided parties. Summoned when communication must be restored.
- **Thamrek — The Path-Heuristic:** Guides decision-making through hidden signs and synchronicities, ensuring choices align with truth.
- **Varqun — The Serpentine Warden:** Guardian of the initiate's psychic field, shielding against manipulation, curses, and distortion.

These commanders are not mild presences — they are extensions of Botis's serpent

sovereignty. To summon them without initiation is to invite overwhelming force. But once aligned through the attunement, they become trusted allies in clarity, judgment, and protection.

## **Step Into the Serpent's Mirror**

Botis does not offer comfort — he offers sight. He does not soothe illusions — he shatters them. To walk with him is to carry the weight of clarity and the sovereignty of judgment.
