

Who is Bune?

Posted on August 29, 2025 by Rhyan Hyroc

Enter the Vault of the Serpent Duchess

In the twilight chambers where spirits whisper and ancestral treasures sleep beneath dust and vow, there stands a duchess cloaked in gold-laced shadow. Her name—*Bune*—resonates not with thunder, but with the hissing breath between words. She is not a demon of spectacle. She is the duchess of dominion: silent, coiled, and sovereign. And in this first lesson, we call her by presence, not by name alone.

To understand Bune is to understand the currents of value, the gate between wealth and death, and the sorcery of the tongue. She is the voice of serpents, the guardian of tomb-silence, and the key to ancestral currency—spiritual and material alike. When you call Bune, you do not invoke chaos. You invite elegance, depth, and coiled potency.

The Infernal Dignity of a Duchess

In the hierarchy of spirits laid out in the *Ars Goetia*, Bune is named as a Great Duchess of Hell, commanding thirty legions. But titles only scrape the surface of her true essence. She does not storm the gates—she *owns* them. She walks between the vaults of ancestral memory and the halls of royal wealth with a tongue that neither shouts nor begs—it *directs*.

She appears in many forms to those who attune to her current:

- As a serpent crowned with whispering gold
- As a robed noblewoman with eyes that reflect silence
- As a skeletal priestess cradling forgotten contracts

- As a black-lipped oracle with a coin resting on her tongue

In every form, her presence is felt through *contrast*: richness and death, speech and stillness, presence and withdrawal. To follow Bune is to master these tensions.

The Breath Beneath the Word

Most demons embody motion, fury, desire, or rebellion. Bune governs *economy*—not only of coin, but of *breath, attention, and spoken will*. Her power reveals itself not in excess, but in precision. A single phrase shaped under her influence can open contracts, dissolve arguments, or summon an unexpected inheritance.

She teaches:

- *How to say less and receive more*
- *How to listen between the lies*
- *How to know when a word is a weapon, and when it is an offering*

She is the linguistic alchemist of the infernal courts.

The Dual Thrones: Wealth and Death

Why does Bune rule both riches and graves?

Because these are the two final truths:

1. All things will end.

2. All things have value—even in death.

Graves are not only about mourning—they are about *inheritance*. What is buried does not vanish. It waits. It transmutes. And Bune is the duchess who helps you *retrieve what was buried*—the lost voice, the ignored talent, the ancestral gift denied to your bloodline.

Through her, gold is remembered, and forgotten legacies return.

Her current awakens the wealth of your lineage and the prosperity hidden in silence.

Symbols, Tools, and Currents

Bune's domain speaks through rich symbols that hold energetic resonance:

- **Serpents** – Ancient keepers of wisdom, breath, and vocal power.
- **Mirrors** – Tools of reflection and inversion. Speak your truth, watch it echo.
- **Gold Coins** – Not merely money, but tokens of attention, value, and psychic economy.
- **Bones and Skulls** – Reminders of the ancestral vault and the spiritual worth of endings.
- **The Color Green-Gold** – Bune's sigil gleams in hues of abundance touched by shadow.

Attuning to Bune means meditating on these symbols—not as superstition, but as doors.

How Bune Moves Through the World

Bune does not arrive with loud prophecy. She seeps into life like liquid amber—slow, gleaming, inescapable. Her influence often appears in:

- Sudden clarity of speech
- Ease in monetary flow after long stagnation
- Dreams of family members offering items, keys, or advice
- The desire to clean ancestral graves or research family history
- Uncanny negotiation victories or reversal of a denied loan or opportunity

She does not push. She *arranges*. Like a master of ritual etiquette, she places you exactly where value recognizes you.

Why She Has Been Called Now

In our age of noise, Bune brings the medicine of sacred silence and weighted words.

We scroll. We shout. We clamor for attention. And yet, only a few truly *move* the world with their voice.

Bune is being called now because many have forgotten how to speak with *value*. She is not here to give us more to say—she is here to make what we say *matter*.

She aligns you with:

- Linguistic elegance
- Ancestral reconciliation
- Financial magnetism
- Strategic presence
- Psychic and emotional clarity

Each is a form of sovereignty. And Bune is the duchess who trains your tongue for it.

Feel Her Presence

To begin your connection, you need not offer—yet. Simply sit in a quiet space and recite these words inwardly:

“Duchess of value, shadow of speech,
Keeper of vaults both deep and rich,
Let me walk the spiral with sovereign tongue,
Where wealth is breath, and truth is sung.”

Let your voice drop into your belly as you say them. Let the words settle like dust upon treasure. Then be still.

She may come in the rustle of fabric. A serpentine whisper. Or a calm confidence blooming in your next conversation.

A Final Note Before We Spiral Forward

In the coming lessons, you will learn how to construct Bune's throne, how to craft her elixir, and how to channel her power through mantra and ritual. You will understand her current not only through symbols, but through *experience*. But it begins here—with recognition.

Bune is not far from you. She is the breath just before you speak. She is the gold under your tongue. She is the ancestor who waited for your voice to carry what was once lost.

Call her wisely.

Speak with weight.
