

Powers of Marbas

Posted on August 29, 2025 by Rhyan Hyroc

When attuning to any spirit, it is essential to understand not only who they are—but what they do. The domain of Marbas is not vast in breadth, but **immense in depth**. He does not scatter his influence across endless symbolic spheres; he roots deeply into the **body**, the **truth behind pain**, and the **structure of healing**.

Unlike spirits whose powers manifest as external dominion—over storms, love, or wealth—Marbas’s power is **inward**. He grants you a new operating system. A method of **seeing through flesh**. A way to restructure illness not as punishment or mystery, but as **mechanical distortion** to be realigned.

Below are eleven primary powers within the Marbas current. Each is alive, dimensional, and able to unfold more the deeper your attunement becomes.

1. Illness Diagnosis by Energetic Sight

Marbas reveals the **root energetic patterns** behind illness—whether spiritual, psychological, karmic, or environmental. This power bypasses surface-level symptoms and goes directly to origin: the “first knot” in the field that created the imbalance.

□ *Use Example:* Feeling unwell without medical answers? Invoke Marbas for an energetic map—he will point your awareness toward the suppressed trauma, entity influence, or emotional loop beneath the illness.

2. Energetic Pattern Repair

Once a distortion is identified, Marbas provides energetic codes to **restore the original healthy pattern**. This is not “healing light” in the generic sense—it is a **specific restructuring**, as if restoring the original architectural drawing of your being.

□ *Use Example:* After confronting the root of a recurring infection, call Marbas to “lay the grid” of energetic correction over that organ or system. He will align your etheric field to support full material recovery.

3. Cell-Memory Alteration

Marbas can access and **reprogram cellular memory**, especially where trauma or ancestral pain is stored in flesh. The body holds stories. Marbas rewrites the script.

□ *Use Example:* Working through stored emotional pain in the hips or chest? Marbas will locate and dissolve the cellular imprint, allowing release of the locked memory and physical ease.

4. Biological Recalibration

Marbas brings misaligned systems back into **coherent rhythm**. From hormones to digestion, immunity to nerve flow—he balances systems to work as a unified field.

□ *Use Example:* If chronic fatigue is rooted in glandular imbalance, Marbas may stimulate dream messages, meditative visions, or physical impulses that re-entrain your cycles to optimal flow.

5. Healing Acceleration

For those recovering from illness, surgery, or deep stress, Marbas can **accelerate natural healing timelines** by amplifying body-field integrity and eliminating subtle resistances.

□ *Use Example:* During post-surgery recovery, daily invocation of Marbas’s current can reduce inflammation, speed tissue repair, and enhance resilience.

6. Deception Revelation

Marbas is a breaker of illusions, especially where health and identity are concerned. He reveals false beliefs about your body, outdated diagnoses, or external manipulation.

□ *Use Example:* Been told a diagnosis that doesn't feel accurate? Marbas will bring clarity—through dreams, signs, or instinct—about what truly needs attention.

7. Psychosomatic Correction

Many bodily symptoms are expressions of unprocessed thought-forms. Marbas excels at showing **how the mind becomes matter**, and reversing that process.

□ *Use Example:* A client has chronic throat issues and shame around speaking. Marbas reveals the link, clears the energetic congestion, and allows expression to reenter the field.

8. Pain Decoding

Pain is a message in a language most have forgotten. Marbas teaches you how to **read pain** like a script—where it speaks, what it says, and what it demands.

□ *Use Example:* Persistent back pain with no physical cause? Marbas may guide you to the root emotion, location in the spine, and a somatic ritual to release the embedded signal.

9. Genetic and Ancestral Insight

Beyond the flesh lies memory. Marbas reads **ancestral codes**—the illnesses, tendencies, and spiritual contracts passed through bloodlines. He shows you which are yours, and which are inherited echoes.

□ *Use Example:* You suspect your depression reflects family trauma. Through Marbas's current, you identify the generational source and break the cycle with a tailored ritual.

10. Protection from Spiritual Pathogens

Marbas creates energetic antibodies against **entity intrusion, etheric infection,** and unwanted implants. He reinforces auric boundaries, particularly for healers and sensitives.

□ *Use Example:* After contact with a draining client, you feel foggy or sick. Marbas clears your field of attachments and restores energetic hygiene.

11. Energy-Body Reweaving

Marbas can completely **reweave your etheric body**, especially after trauma, psychic fragmentation, or disassociation. He reconnects threads between spirit, body, and mind.

□ *Use Example:* After emotional collapse or spiritual crisis, you feel empty or scattered. Marbas's energy rethreads the lines between your systems, bringing integration and presence.

Secondary Capacities and Emerging Powers

As you deepen in your attunement, new powers may emerge. Reports from initiates have included:

- Sudden intuitive medical knowledge
- The ability to energetically scan others at a distance

- Sensations of geometric symbols overlaying the body
- Visions of internal organs during trance
- Feeling guided to specific foods, herbs, or protocols

These experiences are not fantasies. They are the **activation of embodied gnosis**—the kind of knowing that bypasses books and speaks directly through the body’s sacred intelligence.

Why These Powers Are Sacred Now

In an age of disembodiment, distraction, and disconnection, the powers of Marbas restore **root-level sovereignty**. His gifts are not “magic tricks”—they are a **return to the divine mechanics** of your form.

To awaken these powers is to:

- Stop outsourcing your wellbeing
- Begin to trust your internal diagnostics
- Speak the language of tissue, trauma, and energy
- Build a new ethic of **sovereign responsibility** in healing

Each of these powers is a tool. Not all will awaken immediately. Some may stir on Day 5. Others will activate after months. But once the attunement is complete, they remain in you—as **living structures**.

You are not broken. You are misaligned. You are not ill. You are carrying unfinished

stories in bone and blood.

Marbas does not cure. He **corrects**. He does not save. He **shows**.
These powers are not given as blessings. They are **tools of internal dominion**,
forged in truth and applied with sacred clarity.

Use them well.
