How to Sign Up for this Course

Posted on July 24, 2025 by Rhyan Hyroc

Welcome, initiate. Whether this is your first step on the path or a new phase in your unfolding, this guide will show you exactly how to find, select, and begin the right course for your journey—one that matches your needs, your energy, and your level of experience.

Step 1: Discover the Right Course for You
Finding the correct course is a sacred alignment. Use the tools below to let clarity guide your selection:

Search Bar: Located at the top of the site, this is the fastest way to locate a specific course. Enter keywords like a spirit's name (e.g., "Asmodeus," "Bethor"), a desired transformation (e.g., "wealth," "healing"), or a specific domain (e.g., "ritual," "demonology").

Filter by Course Type: Refine your search across powerful categories such as:

Spirit Initiations

Energy Attunements

Soul Technology

Demonology, Angelology, Mythology

Ritual Mastery and Magickal Practice

Filter by Difficulty Level:

All Levels – open to any seeker

Beginner – foundational teachings with no prerequisites

Intermediate – for those who have already undergone prior initiations or attunements

Expert – designed only for advanced practitioners who have fulfilled all prerequisites

Filter by Cost:

Free Courses – instantly accessible without payment

Paid Courses – require a one-time purchase before unlocking the path

These tools will help you navigate the ever-expanding vault of teachings and attunements with ease and precision.

Step 2: Enroll in the Course
Once you've identified the course that calls to your spirit:

If it's a Free Course:
Click the "Enroll" button.

You will be instantly registered and can begin the first lesson right away.

If it's a Paid Course:
Complete the purchase using the secure checkout.

After payment is confirmed, return to the course page and click the "Enroll" button to begin.

Enrollment grants full access to the course and initiates your journey through the modules.

Step 3: Understand the Course Structure
All Terra Incognita Coven courses are drip-fed and designed for integration over time. This means that new content is released on a scheduled basis to allow your energy and consciousness to truly absorb each layer before moving forward.

Spirit Attunement Courses Follow This Sacred Structure:
Module 1: Grimoire

Deep foundations. You'll receive detailed insights about the spirit, its powers, altar guidance, sacred oil recipes, user cases, and symbolic alignments.

Module 2: The Attunement

A 21-day energetic cycle. You will repeat a sacred Rakh Enagh mantra while gazing at the sigil each day. At the same time, Terra Incognita masters will perform 7 distance rituals to align and fortify your spiritual channel.

Module 3: Rituals and Tools

This module unlocks only when you complete the attunement. It includes:

Your power word

Advanced rituals for targeted manifestation

Practical integrations of your new abilities

This sacred progression ensures you not only learn—you transform.

Step 4: Embrace Living Currents
Every course on this platform is a living module.

That means:

New content may be added over time—rituals, updates, case applications, Q&A expansions, advanced uses—always at no extra cost.

As the spirit currents evolve and students engage, the course expands organically to meet your highest potential.

You will always have lifetime access to these living teachings as they grow with you.

Step 5: Complete the Journey and Receive Your Certificate
As soon as you have completed all lessons and marked them as done, your Certificate of Completion will be automatically issued.

This certificate is more than a document—it is a sigil of transformation. It confirms that your energy has merged with the current of the course and the work has been received on all levels.

Step 6: Be Aware of Prerequisites for Advanced Paths
Some intermediate and expert-level courses include prerequisites, clearly listed at the start of the course description.

These must be completed before enrollment is permitted. They are not optional.

Why are they required?

They ensure you have the energetic foundation to safely and effectively enter more complex

rituals.

They build sequential understanding so that each course resonates fully and powerfully within you.

If a course doesn’t allow enrollment, always check if a prerequisite is required.

Step 7: Ask Questions When You Need To
If you ever feel uncertain, blocked, or curious:

Use the Q&A Tab at the top of the course page.

There, you can ask your question directly to the masters.

The response will come as soon as possible and will be tailored to your specific situation—with clarity, care, and spiritual precision.

This is not an AI or forum—it is direct contact with the guiding hands of the current.

Reminders on Access and Support
All courses are accessible across desktop and mobile.

You can change the language of your course—available in 100+ languages.

For technical help, billing support, or access issues, the Help Center is available at any time.

The Path Is Now Open
To begin, simply find your course using the search or filters, and take the first step.

Whether you enter through a free module or embark on a full spirit initiation, you are not walking alone. You are entering a sanctuary of sacred knowledge, guided ritual, and living transformation.

This is more than a course. It is your return to mastery.

Let the current carry you forward.
