

Tools to Harness the Currents of Forneus

Posted on August 11, 2025 by Rhyan Hyroc

Within the ancient seals and whispered pacts of the Ars Goetia, Forneus stands as a master of persuasion, reconciliation, and the shaping of perception. His current does not merely touch the mind — it bends the course of thought, opening doors where before there were walls.

Now, for the first time, you can work with this transformative energy through **three specially prepared tools** — each one **charged and activated by the masters** to resonate with Forneus's living essence:

- **Forneus Altar Tile** - The central point of invocation and focus, designed to anchor Forneus's energy in your sacred space. Each tile becomes a spiritual keystone, amplifying your petitions and aligning the atmosphere with his harmonizing current.
- **Forneus Amulet** - Worn close to the heart, this piece is more than a symbol; it is a living link to the demon's presence, enhancing your eloquence, persuasion, and capacity to influence outcomes in daily life.
- **Forneus Ring** - The signet of ongoing command and cooperation, enabling swift attunement to Forneus's guidance during negotiations, reconciliations, or moments where harmony must be restored.

These are **not mere objects**. They are **active conduits** — prepared, consecrated, and awakened so that the moment they reach your hands, the current of Forneus is already flowing. Each piece is **ritually bound** to his seal and carries the imprint of the masters' activation work, ensuring you connect instantly without preliminary charging or alignment.

Whether your path calls for greater influence in personal relationships, a
