## □ Enter the Abyss Where Time, Death, and Salt Collide

Not all change arrives with clarity. Some comes veiled in rust, decay, and oceans of silence. **Vepar**, one of the 72 spirits of the Ars Goetia, rules the unseen forces of aquatic dominion, strategic deterioration, and psychic disease detection. This course is not about softness. It is about **commanding collapse**—with precision, clarity, and dominance. Whether you face energetic parasites, emotional attachments that have overstayed, unseen health patterns, or you seek tactical silence in hostile environments, Vepar offers **a current of power that cuts through the tides of**
