

The Origin of Mammon – Infernal King of Wealth and Sacred Ownership

Posted on May 19, 2025 by Rhyan Hyroc

In the realm of demonology, few entities command the same level of awe and mystique as Mammon. Often misunderstood, misrepresented, and reduced to mere caricatures of greed in religious dogma, Mammon stands far beyond the figure of sin. In the initiatory path of infernal sovereignty, Mammon emerges not as a tempter of men, but as a Sovereign King—one who governs the laws of energetic ownership, magnetism of value, and dominion over the material plane. This lesson marks the first step into the Dominion of Gold, where wealth is redefined not as accumulation, but as alignment.

I. Demon of Dominion, Not Just Gold

Mammon's mythic presence has evolved over centuries. Traditionally demonized by Christian orthodoxy as a spirit of greed and corruption, his roots are far older, interwoven with ancient gods of abundance, trade, and underground riches. Scholars of comparative theology find connections between Mammon and ancient Semitic deities of wealth—figures who ruled over mines, fertility, or underworld treasures.

In Goetic and infernal traditions, Mammon is more than a simple demon of money. He is a throne-holder, a divine archetype of sacred kingship over earthly domains. The term “mammon” itself, while often translated as “wealth” or “profit,” in older Aramaic implies “that in which one trusts.” This is essential: Mammon does not offer materialism for its own sake, but teaches how energy, value, and trust shape the manifestation of empire.

II. The Three Crowns of Mammon: Trust, Command, and Value

To initiate your relationship with Mammon is to understand his tripartite crown:

1. **Trust** – Wealth flows to those who are aligned with their own self-worth. Mammon instructs the seeker to remove inner scarcity and step into a field of trust—both in the self and in the energetic ecosystem of exchange.
2. **Command** – Mammon does not beg. He commands. This is not arrogance, but energetic sovereignty: the ability to declare desires without collapse. His initiates must embody the frequency of certainty and expectation.
3. **Value** – Mammon reveals that gold follows value, not effort. Prosperity is a reflection of alignment, clarity of vision, and magnetic worth—not sacrifice.

These three principles are not philosophical. They are energetic laws in the infernal current, and your task is to embody them in action, invocation, and ritual design.

III. The Spiritual Function of Wealth

In this current, wealth is not a static goal—it is a living spiritual force. It is not the amount in one’s account, but the expansion of influence, movement, and generativity. Mammon teaches that true abundance is a form of **energetic territory**: the more sovereign you are, the more life moves around you.

Through Mammon, one learns that gold is not earned—it is summoned. It is the effect of presence and the extension of divine will. The sovereign does not hustle for scraps; he attracts kingdoms. Understanding this subtle, esoteric law is foundational to the entire course.

IV. The Path of the Golden Sovereign

To work with Mammon is to step into a higher archetype: The Golden Sovereign. This is a being who does not seek permission to own, to want, or to command.

This path is not for the spiritually timid. It is for those who are willing to claim the full spectrum of human power—shadow and light, earthly and spiritual—and integrate it into their being. Mammon offers no illusions. He is the master of “as above, so below”—requiring a grounding of dreams into structured material action.

The Golden Sovereign embodies:

- **Lucid Vision** – Knowing exactly what one is building, owning, or claiming.
- **Energetic Gravity** – The ability to draw resources, people, and opportunities through vibration alone.
- **Unapologetic Presence** – A refusal to contract in the face of wealth, beauty, or power.

V. Lineage, Grimoire Mentions, and Evolution

In demonological records, Mammon is often absent from the *Lemegeton* or *Ars Goetia*, which highlights his separateness from typical legions. His power does not rest in military might or strategic cunning—it is the gravity of presence, the throne that does not move.

He is mentioned in various grimoires, including:

- **The Dictionnaire Infernal:** Where he is listed as the demon of avarice, surrounded by Christian morality overlays.
- **Modern Demonolatry Texts:** Where Mammon is reclaimed as an initiator into sacred economics, often paired with demons like Belial for mastery of earth and autonomy.

In contemporary occultism, Mammon has re-emerged as a potent force for spiritual entrepreneurs, ritualists, and sovereignty seekers. His modern sigils are often constructed intuitively, or revealed in dream work and trance. His colors are gold, black, and bone; his elements are earth and shadow; his tone is one of stillness and deep internal command.

VI. Key Concepts for Invocation

Before practical ritual work, these six anchoring ideas must be internalized:

- **You are not asking. You are declaring.**
- **Wealth is the result of being, not effort.**
- **The throne you sit on is energetic, not metaphorical.**
- **Scarcity is a psychic parasite to be exorcised.**
- **Money responds to clarity, not chaos.**
- **Sovereignty is service to the Self, not selfishness.**

These truths form the internal framework through which Mammon may be approached. Without these attunements, invocation becomes mimicry, and rituals become hollow.

VII. Preparing to Meet Mammon

Begin with journaling prompts to attune your field:

- What does wealth mean to me, beyond money?
- Where do I still carry guilt, fear, or shame around desiring more?
- Do I beg life, or do I command it?
- What have I inherited about money that must be alchemized?

These questions are more than psychological exercises—they are keys to the temple of your own empire.

The Origin of Mammon – Infernal King of Wealth and Sacred Ownership

Once complete, sit in silence and visualize a throne of black gold. Feel Mammon behind you, not in front of you. He does not approach like a salesman—he watches, weighs, and waits. The Sovereign must call, not plead.

Optional Pre-Ritual Activity:

Stand barefoot on the earth or stone. Speak aloud:

“I claim what is mine by nature, not by negotiation.
I open the gates of alignment.
Mammon, I sit with you—not beneath you.”

Let the silence speak back.
