Posted on August 2, 2025 by Rhyan Hyroc

He is the keeper of unknown thoughts.

Dantalion moves through the corridors of consciousness, not with force—but with sovereign elegance. He is the master of persuasion without speech, influence without struggle, and the complete redirection of internal states.

He governs the invisible—the realms where thoughts form, emotions spiral, and identity is carved and re-carved. To call on Dantalion is to gain access to *yourself*—and to others—in ways unthinkable without his current.

And now, for those who are ready to walk with this dominion, to wear its force and anchor its presence, the sacred tools of Dantalion have been made available—charged, awakened, and sealed by the masters of the Terra Incognita Coven.
